

3.1.0

Quick Start Guide

This guide will help you install and set up IBM Tivoli Continuous Data Protection for Files .

National Language Version: To obtain the Quick Start Guide in other languages, print the PDF from the Quick Start CD.

Product Overview

Tivoli Continuous Data Protection for Files is a data protection solution specifically targeted at user workstations, lap-tops, and file servers on the Microsoft® Windows® platform. This product offers transparent, real-time replication and traditional backup services, and can operate independently of Tivoli Storage Manager. Files can be replicated to both the local disk and a remote target. In situations where network connectivity is temporarily unavailable, files are queued up and replication is resumed once the remote target is available, thus providing continuous data protection.

1 Step 1: Access your software

If you download your product from Passport Advantage®, follow the directions in the download document available at: <http://www.ibm.com/support/docview.wss?rs=2339&uid=swg24015237>. This product offering includes:

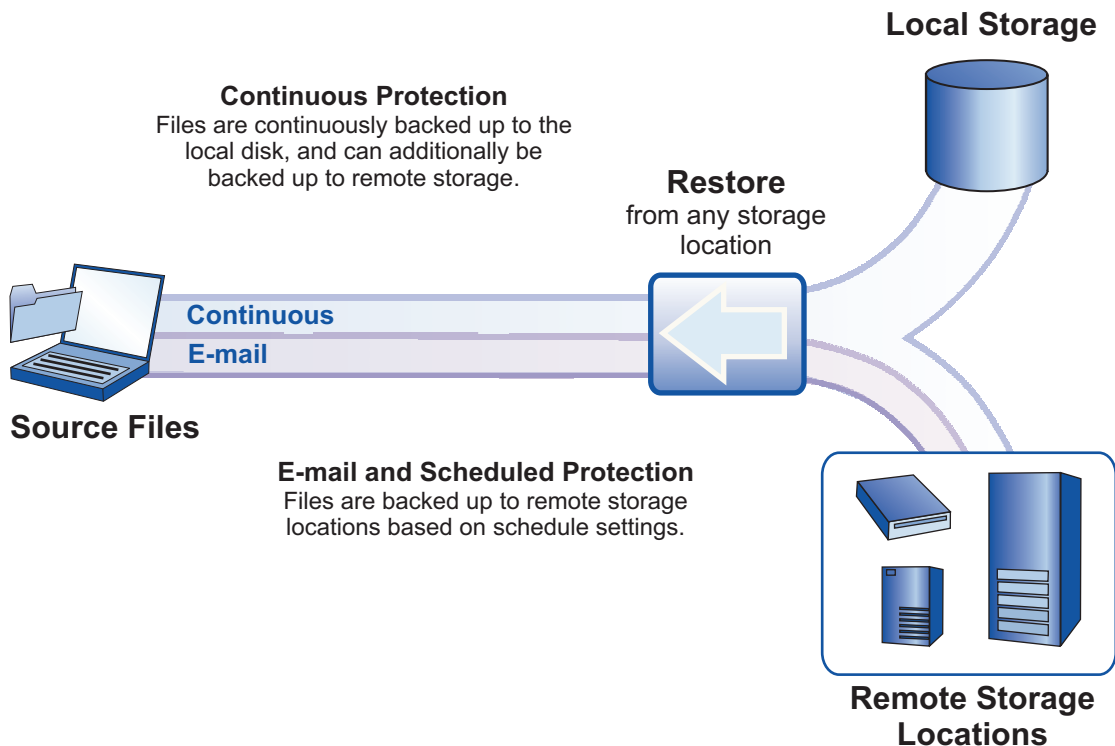

- Quick Start CD
- Tivoli Continuous Data Protection for Files Version 3.1

2 Step 2: Evaluate your hardware and system configuration

See the detailed system requirements document: <http://www.ibm.com/support/docview.wss?rs=2339&context=SS3PE6&dc=DB520&uid=swg21256617>

3 Step 3: Review the base architecture and the installation steps

4 Step 4: Access your documentation

For complete documentation, including installation instructions, see the IBM Tivoli Continuous Data Protection for Files Information Center at: <http://publib.boulder.ibm.com/infocenter/tivihelp/v12r1/index.jsp>

5 Step 5: Install the product

Insert the product installation CD. Double-click on the Tivoli Continuous Data Protection for Files installer icon and follow the instructions to install the product. For detailed instructions, see the Tivoli Continuous Data Protection for Files Installation and User's Guide, available on the Quick Start CD and in the Information Center.

6 Step 6: Configure the product

After you install the product, a wizard guides you to configure the product to meet your requirements. The configuration wizard appears automatically after the installation.
